JEWELL'S COMPLETE LIST SPRING 1940

U.S. Department of Agriculture
Washington
D. C.

Jewell Nurseries Inc., is located at Lake City, Minnesota, on the main line of the Chicago, Milwaukee, St. Paul and Pacific Railroad running from the Twin Cities to Chicago.

In our greenhouse of 45,000 square feet of glass and on the large nursery premises, we specialize in the production of evergreen liners in pots and in field transplants,—potted large flowering clematis, bleeding heart, gypsophila bristol fairy, and a large and diverse general line of nursery stock. Our specialties and shrubs and trees have brought us sales in every state in the United States and several provinces of Canada.

Our seasoned and experienced men, a number of whom have been with us from 10 to 40 years, are highly skilled and trained in the production and handling of plant materials.

Send us your wants. They will be promptly and properly cared for.
